Power supply	120 v / 15 amps
Water supply	Water tank (1.18 gal / 4.5L) / Fixed water supply
Clearance	8" [200 mm]
Certifications	NSF, UL

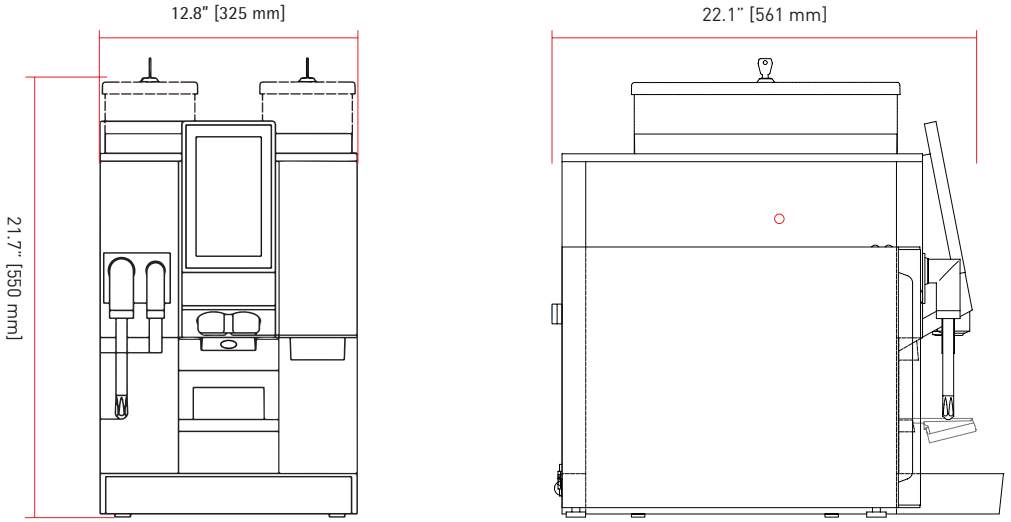

* Output is determined using a machine with constant water supply and is dependent on cup size, quality settings, spout, model and nominal power rating. The recommended maximum daily capacity is based on our catalogued service concept. However, these average values serve merely as a guideline. Let our trained Schaerer team match the ideal coffee machine design to your specific needs.

* AutoSteam - The Auto Steam with air injection and auto shut-off feature is available with our steam wand. It guarantees milk texture and temperature consistence while allowing maximum manual steam flexibility.

** List price inclusive of machine and extended hoppers.
