

Vertical Type Cube Ice Machine

Features

-  Freestanding vertical cube ice machine for bars, prep areas, and beverage service.
-  Produces up to 210 lb / 24 hr (95 kg) to cover daily drink, prep, and rush-period demand.
-  Built-in bin stores 80 lb (36 kg), so fresh ice is ready at the machine.
-  Makes full, half, or large cube options for different beverage styles, matching the ice style shown in the catalogue ice-shape guide.
-  About 15 min per cycle helps replenish ice during steady service periods.

Size (Inch):	26 in W x 26.96 in D x 38.18 in H
Condenser Type	Air-Cooled
Refrigerant	R290 (4.23 oz)
Rated Amp, Voltage, Power	5.8 A, 110 V / 60 Hz / 1 Ph, 526 W
Certification	DOE, ETL, NSF, NRCAN
Ice Production	210 lb / 24 hr (95 kg)
Max Storage Bin Capacity	80 lb (36 kg)
Ice Shape & Size	Cube: full / half / large
Ice Making Time / Cycle	Approx. 15 min / cycle
Ice Release Method	Built-in bin
Materials	304 SS, ABS, PE liner, galv. rear
Insulation	Polyurethane foam
Foam Blowing Agent	Cyclopentane (CFC-free)
Net Weight	276 lb (125 kg)
Warranty	3 Year Parts & Labour

-  Air-cooled R290 refrigeration supports efficient output without water-cooled plumbing.
-  Runs on 110 V / 60 Hz / 1 Ph with 5.8 A draw and 526 W rated power.
-  304 SS, ABS, PE liner, galv. rear construction combines stainless panels with food-grade internal liner materials.
-  Polyurethane foam with Cyclopentane (CFC-free) helps limit heat gain and maintain stored ice quality.
-  DOE, ETL, NSF, NRCAN compliance package supports commercial specification requirements.
