FOOD WARMING/
MERCHANDISING CABINET

MODEL 695D

MODEL 695D-S

Snack foods have to be hot and moist to be appealing. Cold won't do... Dry won't do. Our humidified model 695 Food Warmers and Displays will keep your snack foods hot and moist with fresh-out-of-the-oven flavor and eye appeal. That means longer holding time with less product loss. And that means more profits for you. Now - isn't that appealing?
